

RoomWizard 10 Firmware 3.5.2 Release Notes

Oct 12, 2012

Overview

This document describes updates for Steelcase's RoomWizard 10 firmware version 3.5.2 for the RoomWizard 10 only.

This release contains only one update – support for the RoomWizard Administrative Console.

What's New in 3.5.2?

Feature	Description
Support for the RoomWizard administration console.	The RoomWizard 10 supports being found on the network by the Administrative Tool, allowing remote administration of the RoomWizard 10 devices.

Documentation

Documentation for the RoomWizard is available online at:

<http://www.steelcase.com/en/products/category/integrated/scheduling/room-wizard/pages/manuals.aspx>

How to Update to 3.5.2

To update to the latest firmware version from your RoomWizard 10 go to:

1. The RoomWizard home page.
2. RoomWizard Setup.
3. Login as administrator.
4. Choose the Firmware option.
5. Choose the Upgrade option.

6. Click on 'Upgrade This RoomWizard' for a single unit or 'Upgrade All Wizards' for a group of RoomWizards.
7. Click on 'Accept' and wait for the download to complete.
8. Click on 'Perform Upgrade'.
